## B31 Faith Heals, Mark 5:21-43, Thirteenth Sunday in Ordinary Time

Today Jesus works through the doctors and nurses who dedicate their lives to helping cure people of illnesses. He also works through the minds of his people. You have to believe that you can be healed. If you want to climb and cross a monkey-bar, you've got to believe you can do it before you can accomplish it. If you want to get a better grade in math, you've got to believe you can do it. No matter what your problem is, God will help you. All you have to do is believe and then ask for his help.
